

## **Next Steps in the Benalla Renewable Energy Project**

### **Community Working Party**

Community members needed to form a working party to move this project forward.

Beneficial to have a range of backgrounds including some business/commercial.

Working party to keep community informed of progress.

### **Funding Application**

Benalla Sustainable Future Group with council support to apply for funding from New Energy Jobs Fund – early 2017.

Community input important.

Funding would be to conduct a feasibility study of renewable energy options for Benalla and to develop a Future Energy Plan for Benalla.
