

Free Screening 7pm Sat Sep 1st

Presented by North East Artisans, Benalla Sustainable Future Group and Plasticwise Benalla

ALBATROSS

On a remote atoll in the North Pacific Ocean, albatross chicks are dying, bodies filled with plastic.

ALBATROSS unflinchingly shows the horror and grief of this tragedy, but ultimately brings us to a deeply felt experience of beauty and love for life on Earth.

Stepping outside of traditional documentary film style, ALBATROSS delivers a profound message of reverence and renewal.
